

Aotearoa: A Horticultural Journey in the Land of the Long White Cloud

Emily Joseph - RSBG Retail Sales Manager & Assistant Nursery Manager / Hardy Fern Foundation Nursery Manager

Follow along plant/location guide - S = corresponding slide #

- **S4 Auckland Botanic Garden – Auckland, North Island, NZ**
- **S7** *Dicksonia squarrosa*- whekī (tree fern), *Cordyline australis* – tī kōuka (cabbage tree), *Parablechnum novae-zelandiae* – kiokio (palm leaf fern)
- **S8** *Nephrolepis flexuosa* & *Nephrolepis cordifolia* (native/introduced ladder ferns)
- **S9** *Cyclosorus interruptus* / *Paesia scaberula*- mātātā (lace fern)
- **S10** *Clivia miniata* (bush lily) / *Farfugium japonicum* var. *giganteum* (tractor seat plant) and **S14** *Justicia aurea* / *Rhododendron* (vireya) - likely a *konori* x *zoelleri* hybrid
- **S12** Gondwana Arboretum - *Agathis*, *Araucaria*, *Podocarpus*, and *Wollemi*
- **S14** *Aloidendron barberae* (tree aloe) / *Ficus dammaropsis* (dinner plate fig)
- **S16 Waitakere Ranges – Auckland, North Island, NZ**
- **S18** *Alsophila dealbata* (syn *Cyathea dealbata*) – ponga (silver fern)
- **S29** *Rhopalostylis sapida* – nikau (nikau palm) and *Phymatosorus scandens* (syn: *Microsorium scandens*) – mokimoki (fragrant fern)
- **S30** *Zealandia pustulata* subsp. *pustulata* (syn: *Microsorium pustulatum*) – kōwaowao (hound's tongue fern)
- **S31** *Loxogramme dictyopteris* (*Anarthropteris lanceolata*) - whare ngārara (lance fern)
- **S34** *Schefflera digitata* – patē (seven finger) and *Cordyline australis* – tī kōuka (cabbage tree) / *Agathis australis* – kauri trees (some estimated to be 2000 years old)

“Of the 2,500 native species of conifers, flowering plants, and ferns, over 80% occur nowhere else in the world; our forests have evolved in complete isolation for many millions of years” (Dawson and Lucas, 10). S35

- **S36** *Cordyline australis* – tī kōuka (cabbage tree) with NZ wood pigeon - kererū
- **S37 Fernz Fernery – Domain Wintergardens, Auckland, North Island, NZ**
- **S38** *Alsophila dealbata* (syn *Cyathea dealbata*) – ponga (silver fern), *Dicksonia fibrosa* – whekī ponga (golden tree fern), *Ptisana salicina* – para (king fern), *Paesia scaberula* – matata (lace fern), *Phymatosorus scandens* – mokimoki (fragrant fern), and MORE
- **S40** *Elatostema rugosum*- parataniwha (native understory forest floor plant found only in the North Island of New Zealand)
- **S41** *Ptisana salicina* (syn: *Marattia salicina*) – para (king fern)
- **S44** *Sequoia sempervirens* (California redwood) at Mary Sutherland Memorial Redwood Forest

- **S45 Tongariro National Park, North Island, NZ**
- **S47-48** *Sticherus cunninghamii* (*Gleichenia cunninghamii*) - tapuwae kotuku (umbrella fern)
- **S49** *Gleichenia dicarpa* (possibly *Gleichenia alpina*) - waewaekākā (tangle fern)
- **S50** *Austroblechnum penna-marina* subsp. *alpina* (syn: *Blechnum penna-marina* subsp. *alpinum*) - little hard fern
- **S51** *Lomaria discolor* (syn: *Blechnum discolor*) – New Zealand endemic species
- **S52 Otari Wilson’s Bush – Wellington, North Island, NZ**
- **S53** *Phormium tenax* – harakeke (New Zealand flax)
- **S54** *Zealandia pustulata* ssp. *pustulata* - kōwaowao (hound’s tongue fern) / *Pyrrosia eleagnifolia* (leather-leaf) / *Asplenium oblongifolium* - huruhuruwhenua (shining spleenwort)
- **S55** *Blechnum filiforme* (now *Icarus filiformis*)
- **S56** *Dacrydium cupressinum* (rimu) / *Metrosideros robusta* (northern rata) in symbiosis
- **S59 Kilmarnock Nurseries- Ashhurst, North Island, NZ**
- **S61 Te Horo Ornamentals- Te Horo, North Island, NZ**
- **S62** *Grevillea* and *Protea* grown for nursery plant and cut flower production
- **S63** *Banksia* cultivars grown for nursery plant and cut flower production
- **S65 Pukeiti & Pukeiti Rhododendron Trust- Taranaki, North Island, NZ**
- **S66** *Rhododendron konori* in the Vireya Walk at Pukeiti
- **S67** *Rhododendron ciliatum* planted amid NZ native forest backdrop
- **S68** *Metrosideros robusta* -northern rātā and *Metrosideros fulgens*- scarlet rātā (epiphytic and terrestrial climbers-the former being summer blooming and the latter fall and winter blooming)
- **S69** *Dacrydium cupressinum* – rimu (New Zealand red pine)
- **S70** *Metrosideros fulgens* – climbing rata / *Freycinetia banksia*- kiekie
- **S71** *Parablechnum novae-zelandiae* – kiokio (palm fern)
- **S72-S73** *Asplenium polyodon* (sickle spleenwort) / *Hymenophyllum nephrophyllum* (syn: *Trichomanes reniforme*) – kidney fern / *Hymenophyllum* (24 distinct species) – filmy ferns
- **S74** *Ptisana salicina* (syn: *Marattia salicina*) – para (king fern)
- **S75** Pukeiti Collection - *Rhododendron macabeum* (big-leaf rhododendrons)
- **S76** *Rhododendron protistum* – syn *giganteum* (big-leaf rhododendrons)
- **S80 Dunedin Botanic Garden- Dunedin, South Island, NZ**
- **S83** Grove of *Rhododendron fortunei* hybrids alongside old specimen *Rhododendron arboreum* in the Dell at Dunedin BG
- **S89 Larnach Castle- Dunedin, Otago Peninsula, South Island, NZ**
- **S90** *Cordyline australis* (cabbage tree) / *Lapageria rosea* (Chilean bellflower)
- **S93 Blueskin Nurseries- Blueskin Bay, South Island, NZ**
- **S94 Elliot’s Nursery- Amberley, South Island, NZ**
- **S96 RhodoDirect - Christchurch, South Island, NZ**

- **S97 Fern Factor- Christchurch, South Island, NZ**
- **S102** *Paesia scaberula*- mātātā (lace fern) / *Histiopteris incisa* (syn: *Pteris incisa*)- mātātā (bat's wing fern) / *Cranfillia fluviatilis* (syn: *Blechnum fluviatile*)- kiwakiwa (star fern)
- **S103** *Parablechnum minus* (syn: *Blechnum minus*) / *Parablechnum montanum* (syn: *Blechnum montanum*) / *Parablechnum novae-zelandiae* (syn: *Blechnum novae-zelandiae*)
